## HOBBIES

- ✓ Reading.
- ✓ Watching animations.
- ✓ Listening to music.
- ✓ Travelling.
- ✓ Playing soccer.

---

## LEADERSHIP

The most important skill of a leader that I possess is the ability to communicate effectively.

I also have an eye on the business process to learn which ideas are effective and which less so. In a sense, I believe leadership depends on the ability to observe and to learn.

I am typically creative and I recognize when changes could improve the workflow.

I also possess the ability to deliver harder truths diplomatically so as not to alienate my colleagues.
